Nothing

Good

.

Good

Nothing

-

Excellent

1) The teachers should involve the students more by conducting fun activities regarding the concepts or the syllabus rather than going only through theory
2) They should make the students solve or practice the topics in the college itself rather than giving them as homeworks
3) Avoid taking longer duration classes(for more than 2 hours) of the same subject per day because by taking longer duration classes we, students can't concentrate on other subjects too and it feels as burden..

Everything it's good there is no suggestion to say

Sports activities

No issues completely satisfied

Projectors in classroom
Managing unruly students

Everything is good then there is no suggest to say....

It's always good so there is no suggestion!!

Use lcd projector while teaching

All good 👍

They should use projector for better understand

Na

It need to be improved..

More real world example , real world topics , indepth teaching

Quality education

Smart class

Understanding teachers

Well equipments , well experience teachers, mostly good

....

good communication

more technical

Teachers technical knowledge should be up to software trend

It's good keep going

English communication should be improved

Very good

Excellent

Superb

Activities

Can improve in future

Create a safe space: Make sure students feel comfortable asking questions and that the classroom is a safe space for learning.

Encourage collaboration: Ask students to work together in groups or study groups. You can also ask students to share information about each other's backgrounds and interests.

Provide feedback: Ask for feedback from students and give meaningful feedback to them.

Agreed

Want to improve internship and placements

To do things more Practically and provide internship Opportunities.

Provide quality classes with practically

*Give knowledge about the courses and provide courses for the students because all companies want skills and communication skills

*Monthly monthly give work on projects and about the project

*Provide Software and hardware knowledge skills

Improve coding knowledge

I want our teachers to use AI to teach and develop the skills to education with practical knowledge by giving real time examples rather than theories practical finds best for students develop.

Friendly

I like to tell is teachers should well prepared

Very nice

1.Need well experienced faculties

2To be regular and strict

3.If students are abscent take sufficient actions like (give them high fine amount)that a student took leave more than 6 or 7 classes in a month,he/she need to pay 10k.

In this case happened, obviously student didnt take leave because of fearing to pay of fine

Use better graphics and visual media to engage students

Active Interaction , focusing on weakness and improving the quality of the student,building up confidence

It's overall good enough

Need more interactive good class

Get well experienced staff and promote students to go fir internship and make some cultural events

Better

nothing to say

No suggestions

Good understanding the concepts

-

Need more examples

Quality education
Understanding teachers
Smart classes

Strictly follow the syllabus

*pls assign DS teacher
*Pls consider students suggestions
*Let students do their internship as early as possible

Nice communication
Proper planning
Perfect teaching

More practical classes should be there regarding business
Intership should be provided

Better teachers with knowledge about their subject. Removing the biased attitude of particular teachers(sudhakara k) against students.

Teaching Practically should be improved

Well experienced teaching staffs needed

Not applicable, everything is going good

No suggestions required...

Need to improve their method of teaching

Can improve in communication

Can use projector for better study

If the ICT tools are used the teaching may get even better

Conduct class regularly

Interact more with students

It's overall good enough

- Everything is good

Give more real time example while teaching any topic

Some teachers should make their communication really very 👍 before they teach because communication plays a vital role in teaching.

Should link with real tym examples and make fun in between to make class listen effectively.

Don't teach for long tym 🤖
